WHY SUSTAINABILITY IN LOGISTICS MATTERS TO YOU

Logistics is often one of the largest sources of Scope 3 emissions in corporate supply chains. At Santis Global, we actively reduce this impact for our clients through smart, transparent, and carbon-conscious delivery services.

47% of our fleet is electric or low-emission

Route optimisation technology to reduce emissions

Certified to ISO 14001 Environmental Management since 2015

Real-time emissions tracking and Scope 3 reduction support

Formal science-based targets toward Net Zero

REDUCE SCOPE 3 EMISSIONS WITH EVERY DELIVERY

From vehicle selection to smart route planning, every delivery with Santis is designed to reduce emissions. Our route optimisation process actively minimises fuel use, shortens journeys, and prioritises the use of our green fleet. Our electric vehicles, cargo bikes and EAVs don't just cut emissions, they cut them on your balance sheet.

How we help:

- Provide zero-emission options for final-mile deliveries
- Recommend greener routing and vehicle choices
- Supply monthly emissions data to include in Scope 3 reporting
- Support ESG compliance for tenders and stakeholder reporting

A FLEET THAT WORKS FOR THE PLANET — AND YOUR BUSINESS

Powering Deliveries with Purpose

When you choose Santis, you're choosing smarter movement. Our expanding green fleet helps reduce your delivery-related emissions without compromising on speed, reliability, or flexibility.

WHAT'S IN THE FLEET?

ELECTRIC VANS

- For larger, multi-item loads
- Can carry up to 2 Euro pallets
- Saves up to 4 tonnes of CO₂ per month per vehicle
- Ideal for scheduled runs and high-volume deliveries

ELECTRIC ASSISTED VEHICLES (EAVS)

- Load capacity up to 150kg
- Faster than vans in high-traffic zones
- Saves over 2 tonnes of CO₂ per month
- Perfect for replacing small van journeys

CARGO BIKES

- Holds up to 2 archive boxes (100kg)
- 50% faster in congested urban areas
- Zero emissions, high manoeuvrability
- Great for urgent inner-city deliveries

PUSHBIKES

- Lightweight loads up to 1kg
- Up to 2.5 tonnes of annual emissions saved per bike
- Fast, agile, completely emission-free
- Ideal for documents, small items, and sameday delivery

WHY IT MATTERS FOR YOU

REDUCED SCOPE 3 EMISSIONS

Lower your carbon footprint with every delivery

DATA -DRIVEN CHOICES

Know the emissions impact of each vehicle type through My Santis

DELIVERY SPEED + SUSTAINABILITY

Green options that match or exceed traditional performance

PROCUREMENT-READY

Green fleet usage supports compliance with ESG and public sector frameworks

BUILT-IN CARBON VISIBILITY

Transparency That Supports Your Reporting Requirements

Our digital platform gives you full visibility over your delivery emissions. With route-by-route data, downloadable reports and smart suggestions, you'll always know the impact and how to improve it.

Client benefits:

- Real-time emissions for each booking
- Monthly Scope 3 summaries
- Procurement-friendly dashboards
- Custom sustainability KPIs

OUR CERTIFICATIONS = YOUR ASSURANCE

Backed by Standards That Matter to Your Business

- Heart of the City – Built our Net Zero roadmap
- SME Climate Hub – UN-aligned pledge to halve emissions by 2030
- Ecologi Silver Award – Verified climate investment
